

To whom it may concern,

What follows is public testimony data exported from the Xinjiang Victims Database (shahit.biz) on Wed, 22 Mar 2023 15:00:47 +0000.

A total of 21 victims with the following criteria is considered:

Family: Memetrasul Hesen
Victims with photos

The vast majority of testimonies presented come with supplementary materials - video, audio, pictures, and documents - the links to which are included here and which also may be consulted by accessing the testimonies via the original interface at www.shahit.biz.

In compiling this information, all efforts have been made to faithfully and accurately convey that which has been put forth by the testifier. In many cases, the information was imported from public sources. In others, it was submitted to us directly by the testifier.

Despite our best efforts and most professional intentions, it is inevitable that some human error is nevertheless present. Many testimonies were inputted by non-native English speakers and still require proofreading. Finally, the majority of these testimonies have not gone through rigorous corroboration and as such should not be treated as fact. We hereby leave the way in which this data will be used to the reader's discretion.

Sincerely,
